V6000

Dental Unit

Simple yet extraordinary

- New design of delivery system, **Innovative spatial layout**
- Brand new **intelligent control system** with 3 doctor programs, making personalized settings possible
- Compact packaging design permits **efficient installation**
- **Easily fits the entire package** into the clinic
- Ergonomically designed dental chair with ultra-soft upholstery, **provides an excellent comfort experience**

STRUCTURAL CONFIGURATION

A Brand New Delivery System

Specially designed for higher efficiency and comfort

The treatment table can be flexibly positioned at a wide angle

Meets diverse needs of working position

● Operation activity zone

NEW LAYOUT

Redefined Layout and Space

Striving for excellent treatment experience

Reasonable spatial zoning for doctors and patients to improve efficiency

Ultimate comfort, relaxed treatment

● Patient activity zone

TREATMENT TABLE

Intelligent Control System

Base-mounted treatment table,
flexible moving, and stable positioning

Double joint & three-axis delivery arm

- Delivery arm directly connected to the chair base plate, combining agility and stability.
- Optional height-adjustable arm, catering to multiple work demands.

Powerful and concise doctor control panel

- Touch buttons, clear icons, straightforward operation.
- 3 doctor programs + 15 chair memory positions, allowing multi-user personalization.
- Smart linkage program for cup filling, spittoon rinsing, chair position and dental light.
- Thoughtful safety settings, one-button stop function and interlock protection.

Extra large treatment table with 6 instrument slots

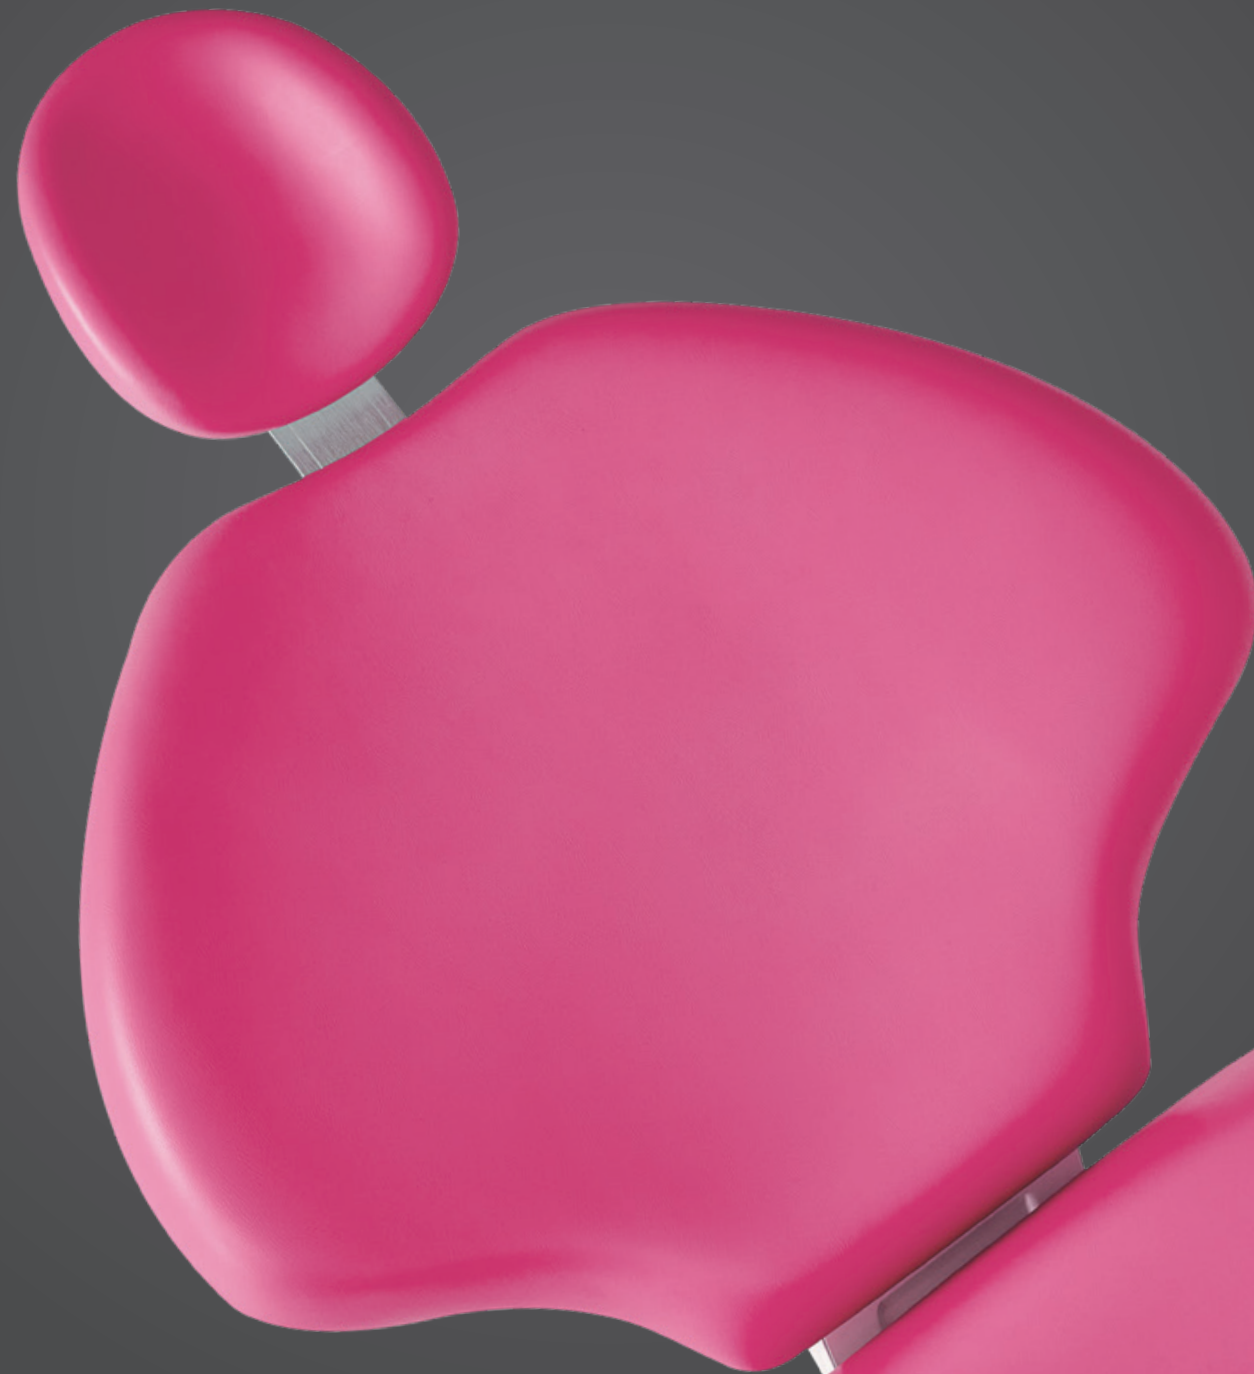

- Large space, strong bearing support.
- 6 instruments available, compatible with various dynamic instruments.

Newly Designed Dental Chair Integration of Comfort and Esthetics

- Upgraded chair structure brings smooth and solid movements.
- Unique SmoothControl™ chair comforting system, makes every movement stable.

Ergonomic design for enhanced comfort

- Well-made upholstery, provides excellent support from head to legs.
- Evenly distributes the weight of the body, helps to keep relaxed during long treatment.

Combination of safety, practicality, and comfort

- Ultra-thin backrest, creates larger legroom for doctor and assistant.
- Low minimum position, convenient for children and elderly patients.
- Angle sensor technology used on chair position memory, ensuring accuracy, avoiding cumulative error.
- Chair descent protection to prevent accidents.

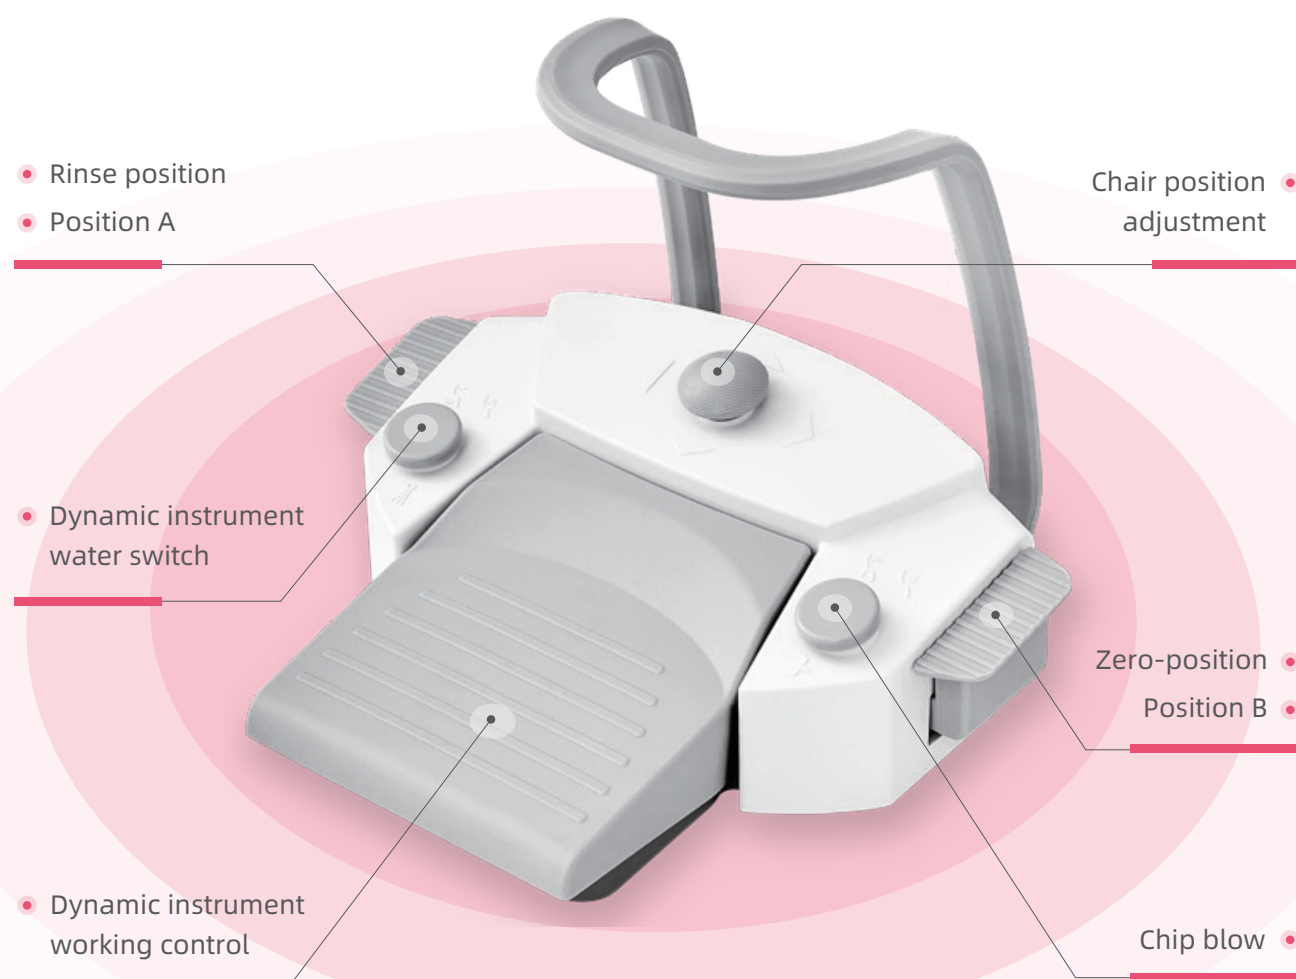

Premium materials and advanced manufacturing process

- Standardized production process for molds: plastic injection and free from wood materials, promising hygiene and durability.
- Snap-fit upholstery system, customizable colors to perfectly match clinic design.
- High-strength steel, ensuring stability and outstanding rust prevention performance.

MULTIFUNCTIONAL FOOT CONTROL

Pedal/lever type available
